OBJECTIVE

Detail-Oriented individual with impeccable passion, having technical knowledge, flexible and Levelheaded under pressure who will work for the company growth and for professional development.

PROFESSIONAL EXPERIENCE

Service Period: JAN 2024 - Present

Name Of Organization: Stellar Technologies

Designation : Full Stack Developer

Job Description: Full Stack Developer with experience in designing, developing, and deploying enterprise solutions. Expertise in .NET Core, Azure, and SQL, .NET Framework. Strong skills in front-end and back-end development, database management, and cloud integration, aimed at delivering efficient and scalable applications.

- Developed and deployed a dynamic Billing System using .NET Core MVC and Razor Pages on Azure, providing advanced billing, payment processing, tax calculations, and loyalty points features for multibranch support.
- Created a **Healthcare Management System** using ASP.NET MVC and SQL, enhancing patient care and administrative efficiency. Deployed on Azure, ensuring reliable cloud infrastructure.

key responsibilities:

- Optimized databases and ensured secure, scalable web applications.
- Collaborated with teams to deliver user-friendly systems on time.
- Wrote technical documentation and conducted code reviews and testing.
- Monitored and resolved technical issues postdeployment to ensure system reliability and optimize performance.
